Erasmus+

London, 13/03/2018

Dear all

The Outcome number 3 from our Erasmus + project ICF Meduse is ready to be used. This provides an online-based certification platform of ICF (International Classification of Functioning, Disability and Health) users. If you have been using the ICF for some time, consistently, in your work, or for training purposes, you can add your expertise in the fields provided and apply for certification!
